Demo
[10 minutes ONLY]

You will need to have a power point with four or five slides only.

• **First slide**: the title of the project and the group members
• **Second slide**: the important assumptions
• **Third slide**: the software process model you used for your project
• **Fourth slide**: the technologies you used in the course project: programming language, database, operating system, IDE, Framework(if used), ...
• **Fifth Slide (optional)**: Division of the teamwork if you are in a team.

Demo the following:

1. Create two Volunteer accounts: Jane Doe and Anni Anderson
2. Create a Program Manager account: John Smith
3. John logs in and posts two service requests: Thursday Nov. 23, from 5:00pm to 7:00pm, needs two volunteers for canteen services at Omni center concession; Thursday Nov. 23 from 5:00pm to 7:00pm, needs two referees in the arena 1.
4. Jane Doe logs in and signs up the for both service request slots.
5. Anni Anderson logs in and signs up for the referee slot.
6. Admin sends email(s) about the confirmed schedule
7. Show your database tables/schema
