Demo 1 Oct. 11, 2018
[10 minutes ONLY]

You will need to have a power point with four slides only.
• **First slide**: the title of the project and the name(s)
• **Second slide**: the important assumptions
• **Third slide**: The technologies you used in the course project: programming language, database, operating system, IDE, Framework(if used), ...
• **Fourth Slide (optional)**: Division of the teamwork if you are in a team of two

Demo the following:

1. A guest user Jane Doe views the items in the store
2. Jane Doe register to be a registered customer of the store
